

Relay box P60 Trailer converter 24 >12V

11105

Relay box used for all vehicles with 24V electrical systems, that runs with 12V trailer.

Part no.	Voltage	Protection
11105	24V	Synthetic Material IP55

SPECIFICATIONS: Waterproof junction box and relay box in one for external mounting. For changing the voltage from 24V to 12 V, 4-5 relays are used in the box. These are controlled by the 24V and lead 12V from the converter out to the lamps (lights).

The pictures are illustrative and may vary from the originals.

Input voltage:	24V
Output voltage:	12V
Current per relay:	8 A
Power per relay:	250 W
Dimensions:	L. 105mm / B. 105mm / H. 64mm
Weight:	0.38 kg
Material:	Synthetic Material
